DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on June 14, 2006, the examiner has carefully considered the amendments.
2. The Declaration under 37 CFR 1.132 filed June 14, 2006 is sufficient to overcome the rejection of claims 1-7 and 13-20 based upon Erickson et al (6,541,553) in view of Erickson (5,389,071) as being unpatentable under 35 USC 103(a).

Response to Arguments

3. Applicant's arguments, see Remarks/Declaration, filed June 14, 2006, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of claims 1-7 and 13-20 under 35 USC 103(a) as being unpatentable over Erickson et al (6,651,553) in view of Erickson (5,389,701) has been withdrawn. Inventor Erickson of the present invention has successfully shown, according to MPEP 706.10, that he is the unequivocally the sole inventor of the claimed subject matter in the present application and patent 6,541,553. Therefore the rejection of claims 1-7 and 13-20 is no longer applicable to the instant claims.

Allowable Subject Matter

4. Claims 1-20 are allowed.
5. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of component (c) a selectively hydrogenated starblock copolymer, wherein the arms comprise at least one block of hydrogenated polydiene and at least one block of poly (monovinyl arene) in amounts from 1 to 10 percent by weight in a UV curable pressure sensitive adhesive consisting essentially of the components as found in instant claim 1. Similar pressure sensitive adhesive are disclosed in the prior art however these fails to teach, alone or in combination, the addition of a starblock copolymer as instantly defined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
